Category	Great	Almost	Poor	Points
Accuracy	All questions are answered correctly.	Most of the answers are correct.	Few answers are correct.	
Answered every question	All steps to each problem are answered. Calculations are stated. Graphs are included, as needed.	Some missing steps or some answers omitted.	Lots of missing components.	
Explanation	All questions have appropriate and accurate explanatory comments, calculations and graphs. Comments are substantive. Vocabulary, spelling, and grammar are correct.	Most questions include appropriate, accurate comments. Comments are perfunctory. Some errors in vocabulary, spelling, or grammar.	Few questions include appropriate comments. Many comments are incorrect, unclear, or difficult to interpret. Incorrect vocabulary, poor spelling, and grammar.	
Procedure	All calculations done using the appropriate Maple commands.	Most calculations done using the appropriate Maple commands. Some calculations entered in by hand	Very few Maple commands used. Most input has been directly typed into the document, just as you would with a word processor.	
Organization	Each problem is nicely organized and formatted properly. Each problem typeset appropriately with templates or maple command line commands.	Answers are present, but work is out of order. Some answers difficult to read. Some scrap work is still present in final document.	Work is jumbled. Very difficult to read statements. Lots of scrap work is still present in final document.
